# Index to
# JOURNAL OF ENGINEERING FOR INDUSTRY

## Volume 83, 1961

**The Journal of Engineering for Industry in 1961 was issued quarterly in February, May, August, and November.**

| Issue | Page Numbers |
|---|---|
| February | 1–100 |
| May | 101–234 |
| August | 235–372 |
| November | 373–586 |

## A

ABBE, GILBERT
Engineering in resuscitation (D) ..... 117

ACCELEROMETERS
Use of the centrifuge for the precision measurement of accelerometer characteristics ..... 202

AIR. *See* GASES

ALBRECHT, P.
New development in the theory of the metal-cutting process. Part II The theory of chip formation ..... 557

ALDEN, JOHN L.
On the mechanics of wire drawing (D) ..... 529

ATCHLEY, A. B.
Thermal-stress analysis of irregular shapes (D) ..... 475

AVITZUR, BETZALEL
Theory of shear spinning of cones (D) ..... 494

## B

BACH, G. L.
Management education—colleges and universities (D) ..... 363

BACKER, W. R.
Experimental investigation of the electrolyte grinding process (D) ..... 201

BALANCING. *See* ROTORS, VIBRATION

BEAMS. *See* VIBRATION

BEARINGS. *See* SHAFTS

BECKER, S. J.
Analysis of the yielded compound cylinder ..... 43
Yielded compound cylinder in generalized plane strain ..... 441

BIJLAARD, P. P.
Thermal-stress analysis of irregular shapes ..... 467

BILODEAU, G. G.
Stresses in thin-walled pressure vessels with ellipsoidal heads ..... 29

BLACKALL, FREDERICK S., JR.
Fifty years of management—a look back and a look forward (D) ..... 370

BLAKE, ALEXANDER
Analysis of buckling column spring with pivoted ends and uniform rectangular cross section ..... 61

BOCK, W. K.
Magnetic properties of malleable irons ..... 425

BOGDANOFF, J. L.
New analytical approach to drill pipe breakage, II ..... 101

BOLTED JOINTS
Deflection of heat exchanger flanged joints as affected by barreling and warping ..... 460
On the determination of the influence of an axial preload owing to bolting on a cylindrical pressure vessel ..... 215

BOSTON, ORLAN W.
Performances of carbide tools in machining 18-8 stainless steel (D) ..... 578

BRADSHAW, F. F.
Management education—industrial ..... 353

BRIGGS, CHARLES W.
Studies of the design of steel castings and steel weldments as related to methods of their manufacture ..... 73

BROCK, J. E.
Stresses in a pipe bent into a circular arc .. 449

BROOKS, E. P.
Management education—colleges and universities ..... 359

BUCKLAND, MRS. F. F.
Experimental investigation of temperature distribution at tool-flank surface (D) ..... 503

BUCKLING
Analysis of buckling column spring with pivoted ends and uniform rectangular cross section ..... 61

BUNDY, F. P.
Calibration techniques in ultrahigh-pressure apparatus ..... 207

## C

CARBIDES. *See* METAL CUTTING

CARROLL, THOMAS H.
Management education—colleges and universities (D) ..... 364

CASSIDY, L. M.
Stresses in thin-walled pressure vessels with ellipsoidal heads (D) ..... 40

CAST IRON
Machinability of nodular cast irons. Part 1 Tool forces and flank adhesion ..... 142

CASTINGS
Studies of the design of steel castings and steel weldments as related to methods of their manufacture ..... 73

CAUGHEY, R. H.
Stresses in a pipe bent into a circular arc (D) ..... 456

CENTRIFUGAL MACHINES
Use of the centrifuge for the precision measurement of accelerometer characteristics ..... 202

CHAO, B. T.
Experimental investigation of temperature distribution at tool-flank surface ..... 496

CHICUREL, R.
Tabular collocation method for beam vibration ..... 373

CHIPS AND CHIP FORMATION. *See* METAL CUTTING

CHURCH, A. H.
Balancing flexible rotors ..... 383

CISLER, WALKER L.
Ten years' progress in management, 1950–1960—foreword ..... 235

COHEN, M. J.
Stress and strain in spinning paraboloid dishes—2 ..... 390

COLE, RENO R.
Experimental investigation of the electrolytic grinding process ..... 194

COOK, N. H.
Free machining steel:
I. Tool-life characteristics of resulfurized steel ..... 163
II. Tool-life characteristics of leaded steel ..... 175

COOPER, W. E.
Stresses in a pipe bent into a circular arc .. 449

CRANE, E. V.
New test method for determination of spinnability of metals (D) ..... 124

CRITICAL SPEEDS. *See* VIBRATION

CURRY, R. B.
Practices in general management—financial ..... 287

CYLINDERS
Analysis of the yielded compound cylinder ..... 43
Flexural vibrations of thin laminated cylinders ..... 397
Yielded compound cylinder in generalized plane strain ..... 441

## D

DAMPING. *See* VIBRATION

DAVIES, CLARENCE E.
Management education—profesional societies ..... 349

DAVIS, R. C.
Management as a profession (D) ..... 276

DECHERT, C. R.
Philosophy of management (D) ..... 258

DISTRIBUTION. *See* MARKETING.

DOHRMANN, R. J.
Thermal-stress analysis of irregular shapes ..... 467

DRUCKER, PETER F.
Fifty years of management—a look back and a look forward ..... 366

DUDLEY, W. M.
Deflection of heat exchanger flanged joints as affected by barreling and warping ..... 460

DUNNE, JOHN B.
Engineering in resuscitation (D) ..... 117

DYNAMOMETERS
Milling forces measured with a planetary-gear torquemeter ..... 579
Milling torquemeter of planetary-gear design ..... 155

## E

EDUCATION. *See also* INDUSTRIAL TRAINING.
Management education—colleges and universities ..... 359
Management education—professional societies ..... 349

EHRICKE, KRAFFT A.
Systems analysis of fast manned flights to Venus and Mars.
Part I: Mission philosophy, life support, scientific reconnaissance, and prototype vehicle layout ..... 1
Part II: Storage of liquid and solid hydrogen on nuclear-powered interplanetary vehicles ..... 13

ELASTICITY. *See also* PLASTICITY, VIBRATION ISOLATORS

ELECTROLYSIS. *See* GRINDING

ENGINEERING
Practices in operational management—engineering management ..... 303

ENGINEERING SOCIETIES
Management education—professional societies ..... 349

ERISMAN, R. J.
Optimum design of helical compression springs ..... 227

## F

FAUCETT, THOMAS R.
Critical speeds of two bearing machines with overhung weight ..... 377

FINANCE
Practices in general management—financial ..... 287

FLANGES. *See* BOLTED JOINTS

FORSTER, A. HUGH
Practices in operational management—distribution management (D) ..... 315

FRENCH, C. E.
Practices in operational management—personnel management ..... 325

## G

GALIMBERTI, JAMES M.
Fundamental machinability research in Japan (D) ..... 542

(D) denotes Discussion of a paper.

GALLETLY, G. D.
Stresses in thin-walled pressure vessels with ellipsoidal heads (D) ..... 40
GARDNER, KARL A.
Stresses in a pipe bent into a circular arc (D) ..... 455
GASES. *See also* HYDROGEN
Free expansion of dry and moist air ..... 97
GEARS. *See also* DYNAMOMETERS
GERWIN, E. F.
Stresses in a pipe bent into a circular arc (D) ..... 456
GILBRETH, L. M.
Management's past—a guide to its future 237
GOETTELMAN, GEORGE M.
Practices in operational management—local government and other nonprofit organizations ..... 330
GOETZ, B. E.
Fifty years of management—a look back and a look forward (D) ..... 371
GOLDBERG, J. E.
New analytical approach to drill pipe breakage, II ..... 101
GOVERNMENT
Practices in operational management
The federal government ..... 317
Local government and other nonprofit organizations ..... 330
GRINDING
Experimental investigation of the electrolytic grinding process ..... 194
On the analysis of random errors in precision grinding operations ..... 131
GURTIN, M. E.
On the use of clearance in viscous dampers to limit high frequency force transmission ..... 50

## H

HAHN, ROBERT S.
On the analysis of random errors in precision grinding operations ..... 131
HALL, I. K.
Theory of shear spinning of cones ..... 485
HAM, I.
Machinability of nodular cast irons. Part 1 Tool forces and flank adhesion 142
HARDING, W. L.
Stresses in a pipe bent into a circular arc (D) ..... 457
HAWKINSON, J. R.
Practices in operational management—distribution management ..... 313
HEAT-EXCHANGE EQUIPMENT
Deflection of heat exchanger flanged joints as affected by barreling and warping ..... 460
HEAT TRANSFER. *See also* HYDROGEN
Experimental investigation of temperature distribution at tool-flank surface .. 496
Free expansion of dry and moist air ..... 97
HIGH-PRESSURE RESEARCH
Calibration techniques in ultrahigh-pressure apparatus ..... 207
HISTORY
Management's past—a guide to its future ..... 237
HITOMI, KATSUNDO
Analysis of the mechanism of orthogonal cutting and its application to discontinuous chip formation ..... 545
Forces on a worn cutting tool (D) ..... 509
Fundamental machinability research in Japan ..... 531
Machinability of nodular cast irons. Part 1 Tool forces and flank adhesion .. 142
HOISTING MACHINERY. *See* WIRE ROPE
HONIGSBERG, C. A.
Deflection of heat exchanger flanged joints as affected by barreling and warping (D) ..... 465
Thermal-stress analysis of irregular shapes (D) ..... 475
HOUSE, RAYMOND N., JR.
Free oscillations of edge-connected simply supported plate systems (D) ..... 439
HOUSTRUP, J. P.
Thermal-stress analysis of irregular shapes (D) ..... 475
HUG, GERHARD
Machinability of nodular cast irons. Part 1: Tool forces and flank adhesion (D) ..... 153
HULL, E. H.
Shaft whirling as influenced by stiffness asymmetry ..... 219
HURNI, M. L.
Management science (D) ..... 340

(D) denotes Discussion of a paper.

HUTCHINSON, T. D.
Magnetic properties of malleable irons .... 425
HYDE, HOWARD K.
Practices in operational management—the federal government ..... 317
HYDROGEN
Systems analysis of fast manned flights to Venus and Mars. Part II: Storage of liquid and solid hydrogen on nuclear-powered interplanetary vehicles ..... 13

## I

INDUSTRIAL TRAINING
Management education—industrial ..... 353
INSTRUMENTS—PRESSURE
Calibration techniques in ultrahigh-pressure apparatus ..... 207
INSTRUMENTS—TEMPERATURE
Calibration techniques in ultrahigh-pressure apparatus ..... 207
Experimental investigation of temperature distribution at tool-flank surface ... 496
INTERNATIONAL RELATIONS
International progress in management .... 343
IRON AND STEEL
Magnetic properties of malleable irons .... 425

## J

JAFFE, W. J.
Management's past—a guide to its future 237
JUCIUS, MICHAEL J.
Practices in operational management—personnel management (D) ..... 328

## K

KALPAKCIOGLU, SEROPE
On the mechanics of shear spinning ..... 125
On the mechanics of wire drawing (D) .... 529
Study of shear-spinnability of metals ..... 478
Theory of shear spinning of cones (D) ..... 494
KEGG, RICHARD L.
New test method for determination of spinnability of metals ..... 119
On the mechanics of wire drawing (D) .... 529
Theory of shear spinning of cones (D) .... 494
KERWIN, EDWARD M., JR.
Damping structural resonances using viscoelastic shear-damping mechanisms. Part II: Experimental results (D) ..... 424
KNOEDLER, ELMER L.
Free expansion of dry and moist air (D) ... 100
KOBAYASHI, S.
Analysis of the mechanism of orthogonal cutting and its application to discontinuous chip formation (D) ..... 555
On the mechanics of wire drawing (D) .... 529
Some controlled metal-cutting studies with resulfurized steels ..... 513
Study of shear-spinnability of metals (D) ..... 483
Theory of shear spinning of cones ..... 485
KRAUS, H.
Stresses in thin-walled pressure vessels with ellipsoidal heads ..... 29
KRONENBERG M.
Fundamental machinability research in Japan (D) ..... 542

## L

LAMORI, PHILLIP N.
Calibration techniques in ultrahigh-pressure apparatus (D) ..... 213
LANGER, B. F.
Stresses in thin-walled pressure vessels ellipsoidal heads ..... 29
LEAD. *See also* METAL CUTTING, STEEL ALLOYS
LEDERER, A. M.
Philosophy of management ..... 255
LEHRER, R. N.
Management education—colleges and universities (D) ..... 365
LEVY, M. J.
Free expansion of dry and moist air ..... 97
LI, H. L.
Experimental investigation of temperature distribution at tool-flank surface ... 496
LIQUIFIED GASES. *See* HYDROGEN
LIVINGSTON, R. T.
Philosophy of management (D) ..... 258
LOBINGIER, G. D.
Management education—industrial (D) .. 357
LOUDEN, J. KEITH
Practices in operational management—manufacturing management (D) ..... 312
LUECK, R. H.
Practices in operational management—the management of industrial research (D) ..... 300

## M

MCADAMS, H. T.
Forces on a worn cutting tool ..... 505
MACHINABILITY. *See* METAL CUTTING
MACHINE TOOLS. *See also* METAL CUTTING
Free machining steel:
I. Tool-life characteristics of resulfurized steel ..... 163
II. Tool-life characteristics of leaded steel ..... 175
Machinability of nodular cast irons. Part 1 Tool forces and flank adhesion ... 142
MACHINING. *See* METAL CUTTING
MAGNETISM
Magnetic properties of malleable irons .... 425
MALCOLM, D. G.
Management science (D) ..... 341
MANAGEMENT. *See also* EDUCATION, ENGINEERING, ENGINEERING SOCIETIES, FINANCE, GOVERNMENT, INDUSTRIAL TRAINING, INTERNATIONAL RELATIONS, MANUFACTURING, MARKETING, ORGANIZATION, PERSONNEL WORK, RESEARCH
Fifty years of management—a look back and a look forward ..... 366
Management as a profession ..... 261
Management science ..... 335
Management's past—a guide to its future 237
Philosophy of management ..... 249, 255
Practices in general management—measurements and control ..... 292
Ten years' progress in management, 1950–1960—foreword ..... 235
MANUFACTURING
Practices in operational management—manufacturing management ..... 308
MARIN, J.
Analysis of the yielded compound cylinder (D) ..... 48
MARKETING
Practices in operational management—distribution management ..... 313
MASUR, E. F.
Analysis of buckling column spring with pivoted ends and uniform rectangular cross section (D) ..... 66
MATHEMATICS
Tabular collocation method for beam vibration ..... 373
Vibration of shaft ropes with time-variable length, treated by means of Reimann's method ..... 68
MAULBETSCH, JOHN L.
Critical speeds of two bearing machines with overhung weight (D) ..... 380
MAYNARD, HAROLD B.
Practices in operational management—manufacturing management ..... 308
METAL CUTTING. *See also* MILLING
Analysis of the mechanism of orthogonal cutting and its application to discontinuous chip formation ..... 545
Experimental investigation of temperature distribution at tool-flank surface ..... 496
Forces on a worn cutting tool ..... 505
Free machining steel:
I. Tool-life characteristics of resulfurized steel ..... 163
II. Tool-life characteristics of leaded steel ..... 175
III. Cutting forces; surface finish and chip formation ..... 181
Fundamental machinability research in Japan ..... 531
Machinability of nodular cast irons. Part 1 Tool forces and flank adhesion ... 142
New development in the theory of the metal-cutting process. Part II. The theory of chip formation ..... 557
Performances of carbide tools in machining 18-8 stainless steel ..... 572
Some controlled metal-cutting studies with resulfurized steels ..... 513
METAL DRAWING
On the mechanics of wire drawing ..... 523
METAL SPINNING
New test method for determination of spinnability of metals ..... 119
On the mechanics of shear spinning ..... 125
Stress and strain in spinning paraboloid dishes—2 ..... 390
Study of shear-spinnability of metals ..... 478
Theory of shear spinning of cones ..... 485
METAL TESTING—FATIGUE
Studies of the design of steel castings and steel weldments as related to methods of their manufacture ..... 73
MILLER, H. M.
Practices in operational management—engineering management (D) ..... 306

MILLING
Milling forces measured with planetary-gear torquemeter ..... 579
Milling torquemeter of planetary-gear design ..... 155

MINING. *See* WIRE ROPE

MITCHELL, WALTER, JR.
Management education—professional societies (D) ..... 351

MOHUN, W. A.
Forces on a worn cutting tool (D) ..... 511

MOLLOY, C. T.
Analysis and design of tangent elasticity vibration isolators (D) ..... 59

MULLER-THYM, B. J.
Practices in general management; new directions for organizational practice .. 278

MURPHY, J. J.
Stresses in a pipe bent into a circular arc (D) ..... 457

## N

NACHTMAN, ELLIOT S.
Free machining steel: III. Cutting forces; surface finish and chip formation (D) ..... 192

NARA, HARRY R.
Studies of the design of steel castings and steel weldments as related to methods of their manufacture ..... 73

NEWMAN, L. E.
Philosophy of management (D) ..... 259

NILES, MARY CUSHING
Practices in general management; new directions for organizational practice (D) ..... 286
Practices in operational management
The federal government (D) ..... 323
Local government and other nonprofit organizations (D) ..... 333

## O

OKUSHIMA, KEIJI
Analysis of the mechanism of orthogonal cutting and its application to discontinuous chip formation ..... 545

ORGANIZATION
Practices in general management; new directions for organizational practice ... 278

## P

PASLAY, P. R.
Design of flapper valves ..... 92
On the determination of the influence of an axial preload owing to bolting on a cylindrical pressure vessel ..... 215

PAULES, C. E.
Practices in operational management—engineering management ..... 303

PEKLENIK, JANEZ
On the analysis of random errors in precision grinding operations (D) ..... 139

PENTLAND, WILLIAM
Free machining steel: I. Tool-life characteristics of resulfurized steel (D) ..... 172
Machinability of nodular cast irons. Part 1 Tool forces and flank adhesion (D) ..... 153

PERSONNEL WORK
Practices in operational management—personnel management ..... 325

PETROLEUM—WELL EQUIPMENT
New analytical approach to drill pipe breakage II ..... 101

PHOTOELASTICITY
Studies of the design of steel castings and steel weldments as related to methods of their manufacture ..... 73

PHYSIOLOGY
Engineering in resuscitation ..... 107

PIPE AND PIPING. *See also* PETROLEUM-WELL EQUIPMENT
Stresses in a pipe bent into a circular arc .. 449

PLASTICITY
Analysis of the yielded compound cylinder 43
On the determination of the influence of an axial preload owing to bolting on a cylindrical pressure vessel ..... 215

PLATES
Free oscillations of edge-connected simply supported plate systems ..... 434

PLUNKETT, R.
Balancing flexible rotors ..... 383

PORTERS, D. B.
Management's past—a guide to its future (D) ..... 247

POTTER, J. H.
Free expansion of dry and moist air ..... 97

PRESSURE VESSELS
On the determination of the influence of an axial preload owing to bolting on a cylindrical pressure vessel ..... 215
Stresses in thin-walled pressure vessels with ellipsoidal heads ..... 29
Thermal-stress analysis of irregular shapes ..... 467

## R

RATHE, A. W.
Practices in general management—measurements and control ..... 292

REFRIGERATION. *See also* HYDROGEN

RESEARCH
Practices in operational management—the management of industrial research .. 297

RESUSCITATION. *See* PHYSIOLOGY

RICE, W. B.
New development in the theory of the metal-cutting process. Part II The theory of chip formation (D) ..... 569

ROPE. *See* WIRE ROPE

ROSENTHAL, PAUL
Forces on a worn cutting tool ..... 505

ROSSHEIM, D. B.
Deflection of heat exchanger flanged joints as affected by barreling and warping (D) ..... 465
Stresses in a pipe bent into a circular arc (D) ..... 457
Thermal-stress analysis of irregular shapes (D) ..... 475

ROTORS
Balancing flexible rotors ..... 383

ROUBIK, J. R.
Milling forces measured with a planetary-gear torquemeter ..... 579
Milling torquemeter of planetary-gear design ..... 155

ROWLAND, V. K.
Practices in general management—measurements and control (D) ..... 296

RUZICKA, JEROME E.
Analysis and design of tangent elasticity vibration isolators ..... 53
Damping structural resonances using viscoelastic shear-damping mechanisms
Part I. Design configurations ..... 403
Part II. Experimental results ..... 414

## S

SADOWY, M.
Milling torquemeter of planetary-gear design (D) ..... 161
On the analysis of random errors in precision grinding operations (D) ..... 140

SCHAFFERS, W. J.
Vibration of shaft ropes with time-variable length, treated by means of Riemann's method ..... 68

SCHEID, E. MITTLESTEN
International progress in management .... 343

SCOTT, WALTER
International progress in management (D) ..... 347

SEVCIK, JOSEF K.
Balancing flexible rotors (D) ..... 388

SHAFTS
Critical speeds of two bearing machines with overhung weight ..... 377
Shaft whirling as influenced by stiffness asymmetry ..... 219

SHALLENBERGER, JOHN B.
International progress in management (D) ..... 347

SHAW, M. C.
Free machining steel:
I. Tool-life characteristics of resulfurized steel ..... 163
II. Tool-life characteristics of leaded steel ..... 175
III. Cutting forces; surface finish and chip formation ..... 181
Some controlled metal-cutting studies with resulfurized steels ..... 513

SHELLS. *See* PRESSURE VESSELS

SMIDDY, H. F.
Management as a profession ..... 261

SMILG, BENJAMIN
Engineering in resuscitation ..... 107

SMITH, P. A.
Free machining steel:
I. Tool-life characteristics of resulfurized steel ..... 163
II. Tool-life characteristics of leaded steel ..... 175
III. Cutting forces; surface finish and chip formation ..... 181

SNYDER, A. E.
Practices in operational management—the management of industrial research (D) ..... 301

SOLIDIFIED GASES. *See* HYDROGEN

SPACE TRAVEL
Systems analysis of fast manned flights to Venus and Mars
Part I: Mission philosophy, life support, scientific reconnaissance, and prototype vehicle layout ..... 1
Part II: Storage of liquid and solid hydrogen on nuclear-powered interplanetary vehicles ..... 13

SPINNING. *See* METAL SPINNING

SPORN, S. R.
Use of a centrifuge for the precision measurement of accelerometer characteristics ..... 202

SPOTTS, M. F.
Optimum design of helical compression springs (D) ..... 232

SPRINGS
Analysis and design of tangent elasticity vibration isolators ..... 53
Analysis of buckling column spring with pivoted ends and uniform rectangular cross section ..... 61
Optimum design of helical compression springs ..... 227

STATISTICAL METHODS
On the analysis of random errors in precision grinding operations ..... 131

STEEL. *See also* IRON AND STEEL

STEEL ALLOYS. *See also* METAL CUTTING
Free machining steel:
I. Tool-life characteristics of resulfurized steel ..... 163
II. Tool-life characteristics of leaded steel ..... 175
III. Cutting forces; surface finish and chip formation ..... 181

STORAGE. *See* HYDROGEN

STRESSES AND STRAINS. *See also* PIPE AND PIPING, PLASTICITY
Stress and strain in spinning paraboloid dishes—2 ..... 390
Stresses in thin-walled pressure vessels with ellipsoidal heads ..... 29
Yielded compound cylinder in generalized plane strain ..... 441

STRONG, PHILIP M.
Critical speeds of two bearing machines with overhung weight (D) ..... 380

STRUCTURES ....
Damping structural resonances using viscoelastic shear-damping mechanisms
Part I. Design configurations ..... 403
Part II. Experimental results ..... 414

SULFUR. *See* METAL CUTTING

SUPPIGER, E.
Tabular collocation method for beam vibration ..... 373

SURFACE FINISH
Free machining steel surface III. Cutting forces; finish and chip formation .... 181

## T

TAKEYAMA, H.
Performances of carbide tools in machining 18-8 stainless steel ..... 572

THERMAL STRESSES
Thermal-stress analysis of irregular shapes ..... 467

THERMODYNAMICS
Free expansion of dry and moist air ..... 97

THOMSEN, E. G.
Analysis of the mechanism of orthogonal cutting and its application to discontinuous chip formation (D) ..... 555
On the mechanics of wire drawing (D) .... 529
Some controlled metal-cutting studies with resulfurized steels ..... 513
Study of shear-spinnability of metals (D) 483
Theory of shear spinning of cones ..... 485

THUERING, G. L.
Machinability of nodular cast irons. Part 1. Tool forces and flank adhesion ..... 142

TORQUEMETERS. *See* DYNAMOMETERS

TRIGGER, K. J.
Experimental investigation of temperature distribution at tool-flank surface ... 496

TRUMPLER, P. R.
Critical speeds of two bearing machines with overhung weight (D) ..... 381

## U

UNGAR, ERIC E.
Damping structural resonances using

(D) denotes Discussion of a paper.

UNGAR (*continued*)
viscoelastic shear-damping mechanisms. Part II experimental results (D) 424
Free oscillations of edge-connected simply supported plate systems 434
URWICK, L.
Philosophy of management 249
USUI, E.
Free machining steel: III. Cutting forces; surface finish and chip formation 181

## V

VALVES
Design of flapper valves 92
VAN DER HORST, J. M. A.
Experimental investigation of the electrolytic grinding process (D) 201
VIBRATION
Balancing flexible rotors 383
Critical speeds of two bearing machines with overhung weight 377
Flexural vibrations of thin laminated cylinders 397
Free oscillations of edge-connected simply supported plate systems 434
On the use of clearance in viscous dampers to limit high frequency force transmission 50
Shaft whirling as influenced by stiffness asymmetry 219
Tabular collocation method for beam vibration 373
Vibration of shaft ropes with time-variable length, treated by means of Riemann's method 68
VIBRATION ISOLATORS
Analysis and design of tangent elasticity vibration isolators 53
VIBRATION SUPPRESSORS
Damping structural resonances using viscoelastic shear-damping mechanisms
Part I. Design configurations 403
Part II. Experimental results 414
VIDOSIC, J. P.
Critical speeds of two bearing machines with overhung weight (D) 380
VILLERS, RAYMOND
Practices in general management—financial (D) 290
VISCOELASTICITY. *See* VIBRATION SUPPRESSORS

## W

WALLACE, J. F.
Studies of the design of steel castings and steel weldments as related to methods of their manufacture (D) 91
WARREN, GLENN B.
Fifty years of management—a look back and a look forward (D) 371
WATERS, E. O.
Deflection of heat exchanger flanged joints as affected by barreling and warping (D) 466
WEAR
Forces on a worn cutting tool 505
WEIL, N. A.
Stresses in a pipe bent into a circular arc 449
WEINWURM, E. H.
Management science 335
WELDING
Studies of the design of steel castings and steel weldments as related to methods of their manufacture 73
WESSTROM, D. B.
Thermal-stress analysis of irregular shapes (D) 475
WHITE, J. C.
Flexural vibrations of thin laminated cylinders 397
WIRE ROPE
Vibration of shaft ropes with time-variable length, treated by means of Riemann's method 68
WOJNOWSKI, REYTON F.
Critical speeds of two bearing machines with overhung weight 377
WORK, HAROLD K.
Practices in operational management—the management of industrial research 297
WORTHINGTON, C. G.
Management education—professional societies (D) 351
WRIGHT, D. K., JR.
Studies of the design of steel castings and steel weldments as related to methods of their manufacture 73
WUNDER, F. R.
Critical speeds of two bearing machines with overhung weight (D) 381

## Y

YANG, C. T.
On the mechanics of wire drawing 523

(D) denotes Discussion of a paper.
